

“Discover printers online and get your prints without the need to set up a print driver.”

## Cloud Based Public Print Overview

GoPrint Cloud empowers users to easily send print jobs from any personal device with internet access to your enabled local printers, safely and securely. This wireless and mobile printing solution offers three submission methods:

- Web Print,
- Email Print, or
- Universal Print Drivers for Windows, MAC, & Chrome.

Select any combination of convenient submission methods for your location and simply alert users how to send their print jobs. GoPrint Cloud can be used as a standalone, with Secure Print applications or even offers a pay-in-the-cloud option with PayPal.

### Ideal For:

- Libraries
- Schools
- Government Offices
- Corporations
- Retail Stores
- Office Supply outlets
- Hotels, and more!

### Supported Formats:

- MS Office files
- Adobe PDF
- All major image files including HEIC

*\*with the exception of vector files*

## Features:

Bring Your Own Device (B.Y.O.D) - Print from any device

Save Costs - Meet print-on-demand needs extensively

Simple to use - Easy and convenient access to quick prints

Go Green - Reduce carbon footprints

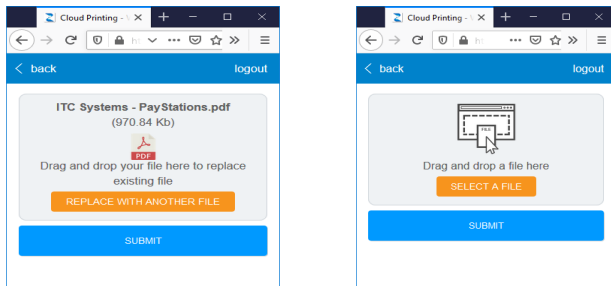

Secure Print System - Your files are secured with controlled access

Automatic Software Updates - Real Time updates ensured

## Pay in the Cloud Features

GoPrint Cloud provides smaller print environments an alternate option to pay for wireless prints without the need for a full-fledged print management solution. This unique GoPrint Cloud environment enables users to create cloud hosted print accounts and pay for jobs through Web Print using PayPal. If your site requires the need for secure release, users can authorize the prints from their email once they are at the printer.

## Secure Release Options

For job security and pay for print options, GoPrint Cloud is an easy complement with GoPrint on premise print management solution. GoPrint Cloud works also with PaperCut, LibData and LPT:One.

Multi-function printer (MFP) manufacturers with Secure Print Services, offers another convenient way to securely protect print jobs submitted through GoPrint Cloud. With Secure Print and GoPrint Cloud, payment for prints as well as copies is easily accepted from ITC's many self-service devices like the PayStation Grand, PayStation Swift or even a Stored Value Card Reader.

## Print Submission Options:
