

**“Monitor printing/copying activity and maintain control over escalating costs along with reduction in operating expenses.”**

## On-Premise Print Overview

Manage all your printing needs with GoPrint on-premise – a secure, server based, pay for print solution.

Reduce waste, recoup print costs, and maximize your printing infrastructure with this scalable solution.

Users are able to send prints through your site’s computers and securely release them to your local printers through popups, computer release stations or ITC Systems’ PayStation Grand or netZtouch devices. GoPrint supports secure release and free printing for users, or pay for prints using any combination of cash, credit card, accounts, all-in-one payment systems.

### Ideal For:

- Libraries
- Schools
- Government Offices
- Corporations
- Retail Stores
- Office Supply outlets
- Hotels, and more!

### Printing Advantages:

- Account printing
- Staff track printing
- Patron printing
- Pay for print
- Anonymous printing

## Features:

Multiple server platforms supported

Wireless and mobile printing supported with GoPrint

Scalable for your environment needs

Supports most operating systems

Multiple payment options available

Secure web-based administration of software

## Secure Release Options

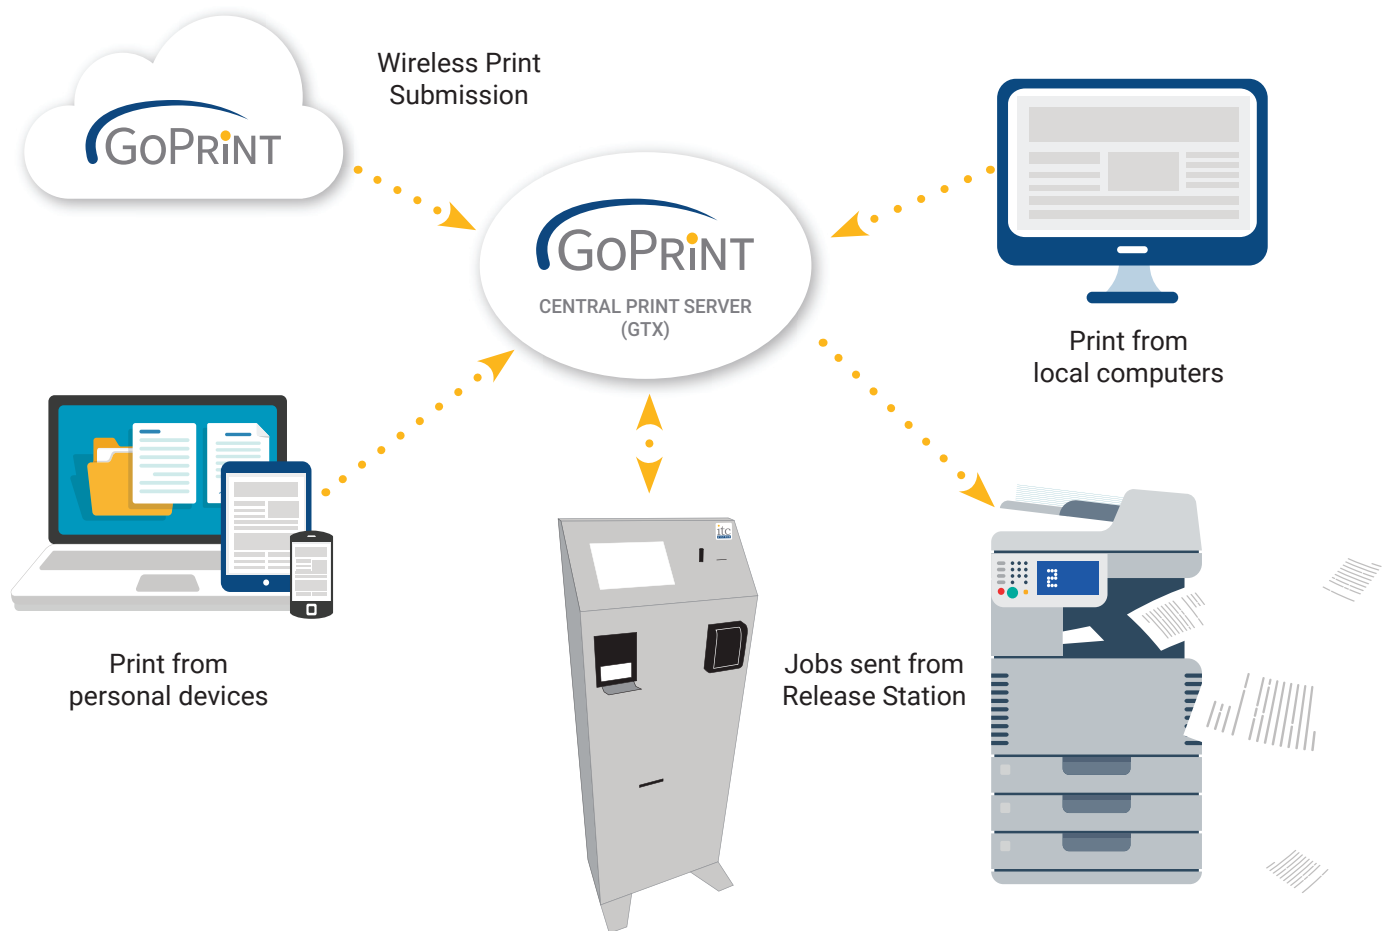

Multi-function printer (MFP) manufacturers with Secure Print Services, offers another convenient way to securely protect print jobs submitted through GoPrint. With Secure Print, payment for prints as well as copies is easily accepted from ITC's many self-service devices like the PlayStation Grand, PlayStation Swift or even a Stored Value Card Reader.

## Web Enabled Administration

- Granular admin security
- Create cashier roles, allowing staff to create accounts & collect funds, with 'drawer' reconciliation
- Customize reports and export to PDF, XLS or CSV file

## Features and Benefits

- Supports anonymous users, no accounts required
- Print release from computer popup or secure print release (computer or payment device)
- Create print rules offering discounts or free prints
- Set free print and user accounts for users, with option to revalue with credit card or cash
- Patron authentication for most computer reservation systems (MyPC, Envisionware, Libki, SAM & LibData)
- Dynamic printer load balancing
- Personalized user interface branding
- Wireless print add-on options
