

ITC Systems is a producer of PaperCut certified hardware and software.

<p>Anonymous Secure Print Interface - Software Module</p> <ul style="list-style-type: none"> • Libraries require print job security in an anonymous mode • The anonymous printing module will auto-add a user to Papercut if they do not currently exist • Users enter any username and password in the PaperCut Pop-Up to release a print job without needing to pre-register • PaperCut checks the Anonymous Database first for users • PaperCut can continue to have other groups such as AD or Internal users when Anonymous Print is running 	 <p>From the workstation, user submits a print job and enters username and password of their choice.</p>
<p>PayStation Elite, Model 5800</p> <ul style="list-style-type: none"> • Operates as a PaperCut print release station • Uses cash and credit/debit cards to pay for prints and copies • Options include acceptable of barcode, mag stripe, and contactless cards • Pay for fines, add value to accounts and print a receipt 	 <p>PayStation ELITE</p>
<p>PayStation Grand & Swift, Model 5400</p> <ul style="list-style-type: none"> • Integrated with the PaperCut's print release station • The Grand accepts cash and credit/debit cards • The Swift accepts credit/debit cards to charge for Prints and Copies 	 <p>PayStation GRAND PayStation SWIFT</p>
<p>Account & Card Loader, Model 7880</p> <ul style="list-style-type: none"> • Add Value to PaperCut Accounts • Accepts worldwide currency/ notes and coins • Accepts credit/debit cards and Apple Pay • Optional card reader for Mag, Contactless, Barcode, etc. • Card dispenser and receipt printer option • Create PaperCut accounts on the fly 	 <p>7880 Loader</p>
<p>netZtouch QBX 7800 Print/Copy Controller</p> <ul style="list-style-type: none"> • Secure PaperCut Print Release Station and Copy Controller • Integrated Mag Swipe, Contactless or Barcode Reader • 7.5" touch screen—intuitive and user friendly • Interfaced with most MFPs 	 <p>netZtouch QBX 7800</p>
<p>Legal Connector - Software Module</p> <ul style="list-style-type: none"> • Integrates PaperCut with legal accounting packages • Allows for print and copy bill back to Matter numbers and Clients • Integration to legal accounting packages made easy through the config file structure 	

Anonymous Print

Anonymous Print from ITC Systems simplifies printing for guest users who need temporary access to printing services. It acts as a bridge that enables guests to secure their print jobs at the point of printing via the workstation's PaperCut popup. This prompts the user to create a User ID and Password for their job, without the hassle of setting up a permanent PaperCut account. Once the job is complete, the user can log in to any PaperCut enabled release station or device, and claim their print job. ITC Systems' Anonymous Print deploys easily, and it's great for library and school environments, where users are typically neither repeat customers nor part of an existing database.

Legal Connector

ITC Systems' Legal Connector is middleware that acts as a bridge between PaperCut and a variety of legal accounting software packages. With legal packages such as PC Law and Tabs3, Legal Connector imports client and matter numbers directly from the accounting software into PaperCut. It's seamless, and it can be set up to operate according to your preferred schedule. Legal Connector facilitates client billing, cost recovery, and reporting for copy and print services. Installation of this software requires professional assistance from an ITC Systems technician to ensure the PaperCut database is configured to accept the data from your accounting software in its desired format.

PayStation ELITE, Model 5800

The 5800 PayStation accepts barcode, mag stripe, and contactless cards. It operates as a PaperCut release station and interfaced to most MFDs on the market today. The 5800 is capable of paying library fines, adding value to accounts, and printing receipts. It gives PaperCut users the option of paying for print and copies using cash and credit/debit cards and adding to accounts.

LCD	7.5" Color LCD Touch Screen
