- Multiple payment options (bills, coins, credit/debit)

Applications

- Public and Academic Libraries
- University & College Campuses
- Copy and Print Centers
- Chain Stores
- Hotels

PayStation Series

ITC Systems' Pay Station series consists of the Swift, Grand and Elite products. Each Pay Station has its own features, advantages and benefits however, they all control MFD's and charge for the copies and prints they produce. Featuring multiple price lines that can distinguish between different prices for color, black and white, page sizes, etc.

Three platforms to choose from; the Pay Station Grand which can be configured to accept worldwide currencies, bills, coins and credit cards for transaction processing while the Pay Station Swift accepts worldwide credit cards to perform these functions. The newest addition to the Pay Station family is the Elite, which combines print release, account loader and copy controller into a single unit.

There is no other vendors of Pay Station who continue to develop their line, who include Pay4Print software with each unit or has more than one model to offer—ITC Systems is alone out there and we continue to lead the pack.

PayStation Elite

The Pay Station Elite has a 7.5" Color LCD touch screen, can be equipped with a magnetic swipe, contactless, or barcode card reader for authentication purposes. Communication security is enhanced with SSL/TLS certification over the network. Once the user is authenticated, print or copy transaction is processed, charged for and logged. The print job is then released or the copy function enabled and the transaction balance displayed

Once the user has authenticated, money can be deposited into their account or funds can be used to pay for the current transaction. Credit/debit card acceptance is achieved using an integrated system based on cellular technology and then funds can be used to pay for copy and print transactions.

Comes with GoPrint software ready to use and has 128 pricelines available.

Pay Station Grand

The Pay Station Grand has a one-piece design to streamline setup, installation, and operation. The controller can be uniquely configured to the needs of your environment and can accept any combination of coin, bill, stored value card, or credit/debit card operation. The Pay Station Grand has multiple price lines to support all major MFD's to charge for functions such as printing and or copying. This re-engineered Pay Station Grand is lighter, sleeker, and provides ease of shipping and handling for customers.

This is the workhorse in the lineup which continues to be developed to meet the needs of ever-changing MFD's and Printers. The Grand can control a MFD while also being interfaced to a Print Release Station making it the most versatile unit in the industry.
